PROGRAM: BARISTA INSTRUCTOR: GENESS

Dear Student,

We hope the before/after school program was even better than you expected. Please provide a testimonial about your experience in the program.

If you're willing to write a couple of sentences for us, here are a few questions that might help get you started.

- What attracted you to the program; and how did the program meet or surpass your expectations?
- What was the most valuable thing you learned or experienced in this program?
- If you had a friend who was considering taking this program, what would you tell them and why?
- What did you like best about this program or instructor?

We'll share your thoughts on our website and social media so potential students can find programs they'll enjoy by hearing from real people who have taken them. Don't worry, we're not looking for flawless prose. We're just excited to hear about your real, positive experiences with our program.

My friend originally brought me here but now I  
actually want to learn how to make coffee. I learned  
how to make certain types of coffee. I would  
tell them to join because they like coffee  
and its an interesting program and we could  
make coffee together.

Please feel free to write more on the back of this page. Thank you so much for your time. We, and our future students, really appreciate it.

Best,

STS Academy

I love that we are able to have the opportunity to learn  
things about coffee and how its made. I also love that they  
provide us with this. We are also welcomed by Ms. Genese and  
she is sooo lovely I love how she works with us.

Please feel free to write more on the back of this page. Thank you so much for your time. We, and our future students, really appreciate it.

I was attracted to this program as I love coffee and the way it is made. I've seen jobs available for Starbucks and Dunkin'. Having experience making coffee will make getting a job at either company easier.

I love coffee.

STS Academy has exceeded my expectations by  
always being available to help and assist  
each student with homework or any questions  
we have. Through STS I learned the value of  
collaboration and working with others. I would  
~~recommend~~ recommend a friend to attend this program  
if they needed any help with anything. Great program!
