WHAT'S THE EXPERIENCE AT T.L.C

(THE LEARNING CENTER)

The learning center offers an exceptional experience for children; witnessing it in person is truly remarkable. Engaging directly in the program provides a valuable experience, and the management of the program at the learning center is commendable. I appreciate the way the educators connect with each child; it is evident that the children have a strong affection for all the teachers. When the children burst through the door, their faces adorned with the brightest smiles, it exemplifies why the staff at the program are passionate about their work. As the children rush in, **They express, 'I missed you,' which undoubtedly ranks among the most rewarding feelings for the staff involved in the program.**

It prompts you to reflect on the influence you have had on that child. The learning center offers a wide array of activities for children, including after-school programs, spring break sessions, and summer programs. The children are particularly fond of arts and crafts, frequently requesting printouts for coloring or creating projects. Additionally, do not become too complacent, as the children will soon return for more printouts, humorously speaking.

However, the experience at the learning center is not solely focused on play for the children. During the after-school program, they are required to complete two or more pages of homework along with an STS assignment on the laptop. Observing the program in action has been truly remarkable, and I would like to extend my sincere appreciation to the staff at the learning center for their dedication.

The dedication and affection demonstrated by the staff in their efforts to ensure that children feel joyful and eager to attend each day is commendable. Each day presents its own challenges, yet the staff consistently rise to meet them. The program is exceptional, and I wish there were more similar initiatives available. It not only supervises children but also educates them. As a parent, I am grateful to be in an era where my child can benefit from such enriching programs.

Pittsburg Pirates

FOOTBALL TEAM

We have good news after the 4th quarter progress reports came out. Our Varsity team only has 5 student-athletes below a 2.0 as of 4/25. That is 5 out of 67 total students. Our JV program is progressing but still has 8 student-athletes under a 2.0 out of 45 total students. The after-school program with STS's support is definitely starting to bear fruit in a positive way.

Overall, the student-athletes of the Pittsburg Football Program continue to make strides this Spring semester thanks to the support of the STS program. We continue to track grades for all students to gauge how effective the after-school support program is working. We continue to work with student-athletes both socially and emotionally in our program. The goal is to have that be at 90% among the 110 student-athletes by the 4th quarter progress report on April 17th.

Sincerely,

Charlie Ramirez

DANCE IS LIFE

PHS FOLKLORICO GROUP

FOLKLORICO DANCE POEM

In a world so vast and wide
Dance is where souls coincide
with a twirl, a leap, a slide
emotions in rhythm side by side
hands held tight, feet in line to
be beat, hearts intertwine with
every move stories shine in
dance all align
from dusk till the morning chime
dance speaks a language so
prime through ages and eras
climb and climb
Dance remains in perfect rhyme
