FUN FACTS

Juneteenth is an annual holiday celebrated on June 19th. It commemorates the emancipation of enslaved African Americans in the United States. The first celebration of Juneteenth was on June 19, 1865. The term "Juneteenth" is a combination of "June" and "nineteenth".

National Days: June hosts several fun national days, including National Rocky Road Day and National Chocolate Ice Cream Day, making it a sweet month for indulgence.

Named After Juno: June is named after Juno, the Roman goddess of marriage and childbirth, which is why it remains a popular month for weddings.
